

VERIFICATION OF COMPLETION OF HIGH SCHOOL REQUIREMENTS

The CalWORKs Rule. MPP §42-101.2 “A child 18 years of age is eligible for CalWORKs only if he/she is enrolled as a full-time student (as defined by the school) in high school or, if he/she has not completed high school, in a vocational or technical training program which cannot result in a college degree, provided he/she ***can reasonably be expected to complete*** either program before reaching age 19.”

NOTE: This does not require that a student graduate high school, but only that the school reasonably believes that the student would complete his or her high school requirements by the time he or she is 19 years of age.
